

Dushetty Sai Pranav

Aspiring Software Developer

dsaipranav3125@gmail.com | Hyderabad, Telangana | linkedin.com/in/dushettysaipranav

CAREER OBJECTIVE

Motivated to become a software developer by building strong fundamentals in programming, web development, and practical problem solving.

EDUCATION

Institute Of Aeronautical Engineering 1st Year
B.Tech in Information Technology

Narayana Junior College
12th Standard, MPC Stream

SKILLS

HTML, CSS, JavaScript, Responsive Web Design, Front-End Development, Problem Solving, Teamwork, Communication

PROJECTS

IPL Data Analysis

- Analyzed IPL-related data to understand team performance, player statistics, and match trends.
- Improved my ability to work with structured data and draw useful insights from analysis.

Portfolio Website

- Developed a responsive portfolio website using HTML, CSS, and JavaScript.
- Showcased personal projects and technical skills in a structured and professional layout.
- Designed a user-friendly interface with a clean layout and responsive sections.

Password Generator

- Built a password generator project to create secure passwords using Basic Python.
- Improved my understanding of user input handling, randomization, and interactive functionality.

AquaRakshak

- AquaRakshak is an SDG 6 focused smart water-management web project built to help communities and administrators monitor water quality, detect risks early, and respond faster to issues like contamination, leakage, and shortage.
- Live URL: aquarakshak.web.app
